

# College of Medicine COVID-19 Survey Results

This report summarizes the Faculty Senate Office's COVID-19 Survey results for the College of Medicine.

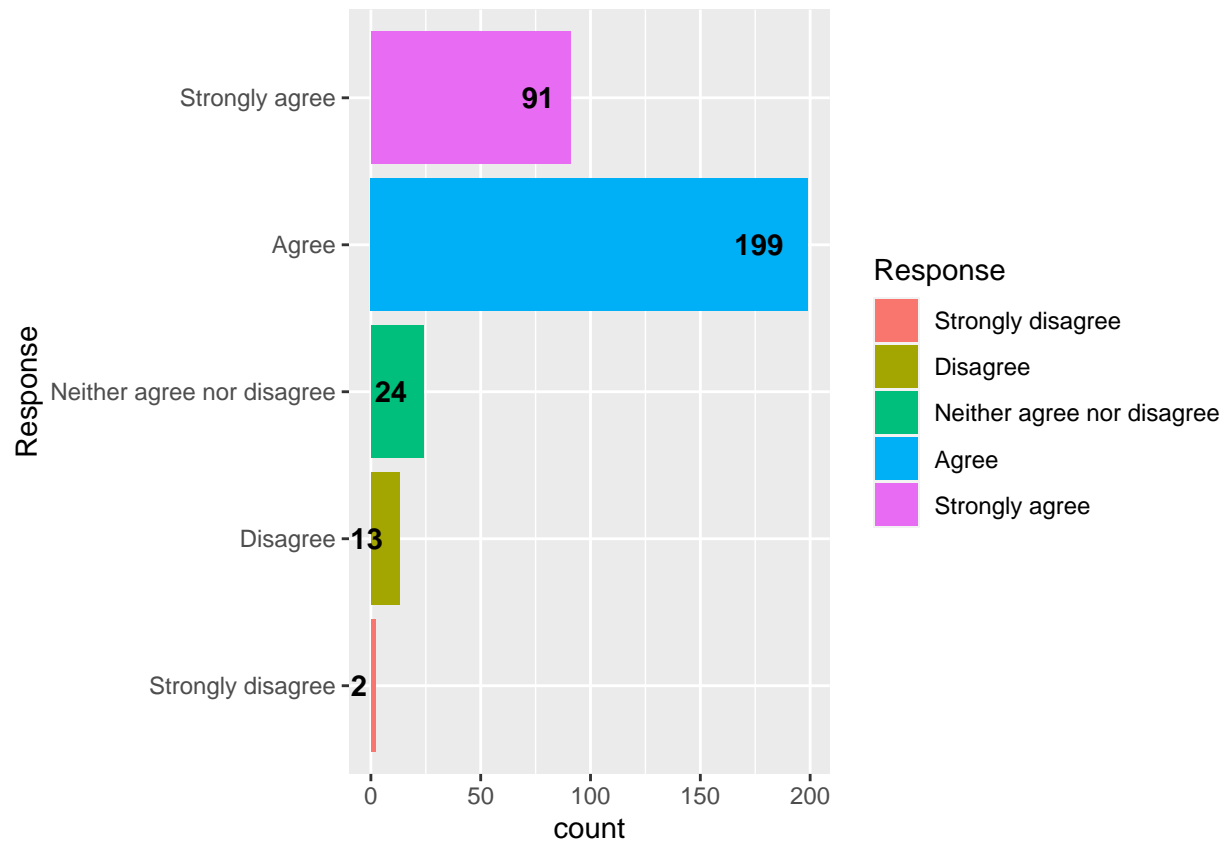

Each survey question is presented first with the full college data, then broken down by age, gender, and method of teaching within the college.

There were 330 total survey respondents from the College of Medicine.

### Question 3:

Overall, the University of Iowa has done a good job helping faculty adapt to the changes at the institution brought on by the spread of COVID-19.

## Question 38

Here are the graphs for each teaching type. The teal color bars show the answers from the respondents who teach the type of class shown in the graph. The salmon colored bars show the responses of those who do not teach that type of class.
